Lightweight design for added comfort

- Narrow shape for easy movement in tight spaces
- Well-placed buttons and manual controls for easy one-hand use
- Comes with a respirator for TH3-level breathing protection
- EN166 (both models) and EN175 certified (welding models) for full-face protection
- Vision+ technology for a clear and accurate view of the work environment (in welding models)
- Offers a selection of two high-quality ADF filters (SA 60Z and XA 60Z). Depending on welding specifics you can select the right shade range
- Built-in LED work lights for visibility in a dark environment
- Work lights turn on or off automatically for easy hands-free operation
